MATCHING FUNDS CHALLENGE

The children--Morales (12), Christopher (8), and Elvin (4) begin shrieking when they see her. Moments before they had been dancing for joy after finding a couple of cabbage leaves in the local dump. You see, Urania leaves every morning to find work either cleaning or washing but each of the last three nights she had come back without having found any, leaving her family without any food for yet another day. Now Christopher and Elvin are grinning ear to ear with delight. Tonight, they will eat more than just a few scavenged cabbage leaves. Your donations help feed 75 children just like Morales, Christopher, and Elvin. Mothers only earn \$2 a day or less, and work is difficult to find. **Will you help?**

- \$30 provides a food packet for a week with cleaning supplies for COVID protection
